

University Course Selection Form 2010-2011 (revised)

Student's Name: (Please print) _____

Please select courses for the semester you will join Class Afloat. You must choose a minimum of **THREE** courses to a maximum of **FIVE** courses. You may check only one selection in any row/group.

You must also choose an alternative selection. Please mark your alternative selection with an "A". This alternate will be assigned if one of your choices becomes unavailable.

In addition to the options presented, all students are required to be active participants in Class Afloat non-credit courses in Cultural Discovery and Physical Ed/Seamanship.

ACADEMIC COURSE SELECTION NOTES:

- BIOL 1113, ENVS 1013 and BIOL 4023 will be offered by Acadia professor Dr. Soren Bondrup-Nielsen. Dr. Bondrup-Nielsen will be sailing aboard for the 1st semester program only.
- PSYC 1013, PSYC 1023, ENGL 1213, ENGL 1413, RECR 1263, POLS 2783, BIOL 3013, GEOL 2753 and SOCI 1033 will be offered via Acadia University's distance education department. Each course will be timetabled daily, just as the professor-led courses will be, and will have a course facilitator in class to animate discussions, assist students with assignments etc. Assignments will be submitted via email to the course professor at Acadia for evaluation while in port.
- No courses listed below have any prerequisite high school courses – all are open to all students except PSYC 1023 (PSYC 1013 is the pre-requisite), though it is strongly suggested that students have an interest and aptitude for sciences if selecting BIOL 1113, ENVS 1013 or BIOL 4023.

SEMESTER ONE (September-January)

GROUPS	COURSE	<input checked="" type="checkbox"/>	COURSE	<input checked="" type="checkbox"/>
Group A	BIOL 1113			
Group B	BIOL 4023		OR ENGL 1213	
Group C	ENVS 1013			
Group D	PSYC 1013			
Group E	BIOL 3013		OR RECR 1263
